Public to get free TV without Gov't coupon

Universal begins handout of special New TV boxes free to everyone covering a 5yr warranty on the Miracle ClearView TV box that immediately gives you high quality TV picture, enhanced sound and allows you to receive free channels

No Bills: New ClearView TV™ receives free channels, no need to pay for cable to get the new digital picture quality and sound

The U.S. Government is doling out \$990 million so everyone can have free digital TV.

Uncle Sam is actually paying to help everyone get a special new TV box that automatically receives free over-the-air channels. And now thanks to Universal TechTronics, it's real easy to get them.

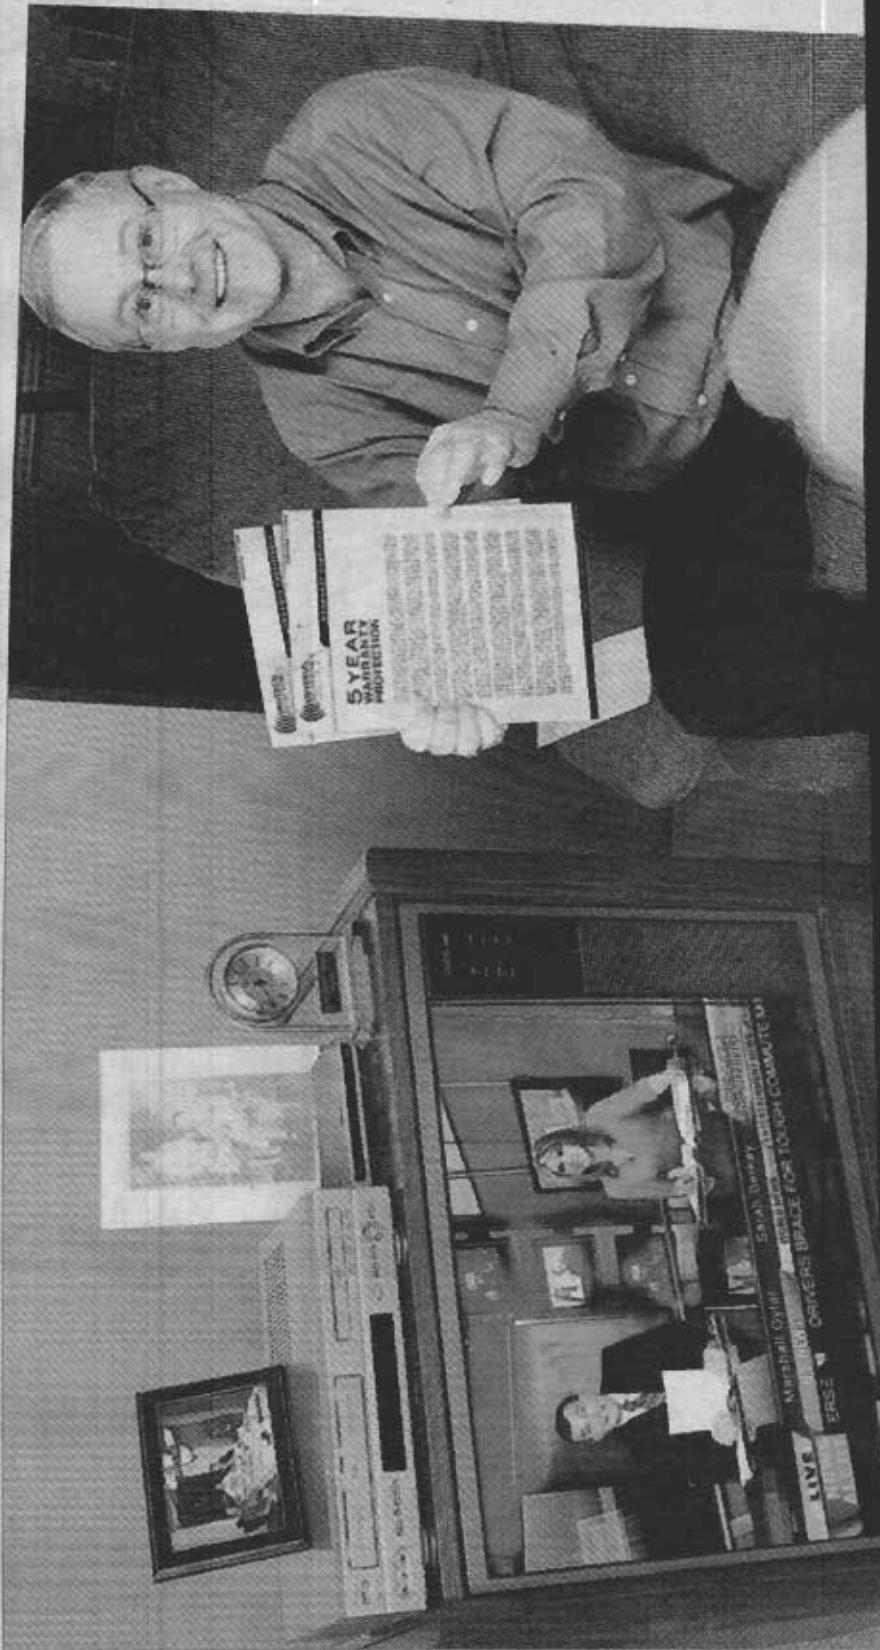

We'll tell you how to get these amazing new boxes called "Miracle ClearView TV™" for free so you won't have to wait until you get a Government coupon.

"To be sure you don't miss the deadline to get the free Miracle ClearView TV box, we'll give you the phone number because everyone who covers just the 5yr warranty protection will actually get the TV box for free," said Christopher Gallo spokesman for Universal TechTronics.

That means everyone who beats the 72 hour order deadline to get the protection of the 5yr warranty for the free Miracle ClearView TV box will instantly get all digitally broadcast free channels with clear, bright pictures.

So, unless you want to pay for TV channels you better get in on this while the tab is being picked up for you. Everyone will need this that has a TV older than a 2007 model that doesn't receive digital signals.

"The U.S. Dept. of Commerce is preparing everyone for the switch to digital television by authorizing payment coupons for certified brands of these special TV boxes. But the government process has us all tied up," said Gallo.

That's why Universal TechTronics is providing these Miracle ClearView TV boxes immediately to the general public for free for everyone who gets the 5yr warranty.

Special TV boxes will be required because the transition to digital air-waves will affect over 50 million people. The Dept. of Commerce has gone to great lengths to make sure everyone knows that analog TV sets receiving free TV using an antenna will soon not work. Television viewers with these sets that are not connected to a pay-TV service will need the new converter box before February 17, 2009, otherwise the TV sets will not continue to work.

That's right, TV stations will be turning off their traditional analog broadcasts making television sets unable to receive all the new free digital signals. These new TV boxes actually brings you the new high quality digital signal from the airwaves for free. The result gives TV's super quality picture, better sound along with the free digital channels.

Anyone with a TV made before March 7, 2007 will most likely need the special TV box. Otherwise they will have to buy an expensive new digital TV or start paying monthly bills for cable and satellite just to get local digital channels.

"As far as the number of channels, it's like comparing apples to oranges. There are many channels and services that are available through cable that are not available for free as advertiser supported services with the use of a TV converter box. But when it comes to quality of the picture and sound you get from the Miracle ClearView TV box, why would anyone pay to get all those cable channels you don't use anyway," Gallo said.

So, to be among the first to get in on this giveaway readers should call Universal's National Hotline to beat the order deadline to cover the 5yr protection and get up to two Miracle ClearView TV boxes for free and never have to pay for expensive satellite or cable bills for years to come.

"What most people don't know is that because the Miracle ClearView TV box receives digital broadcasting you will be getting free television with better quality picture and superior sound at no extra cost to you," Gallo said.

Everyone wanting to get in on this giveaway should start calling the National Hotline at 7 a.m. today to get the Miracle ClearView TV boxes for free before the deadline ends to get the 5yr warranty.

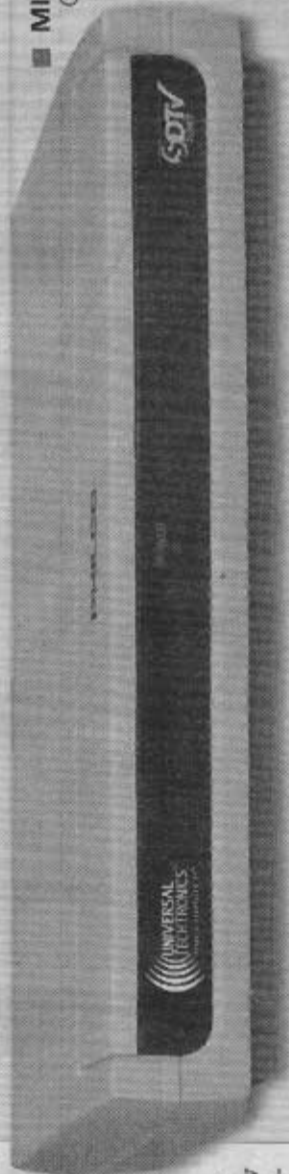

"Anyone who misses this deadline will have to register to get a government coupon before March 31, 2009 and then go buy one of the TV boxes if they can find them at a store. But why would anyone want to wait when they can get the free Miracle ClearView TV box protected with the 5yr warranty delivered to their door right now?"

■ **NO MONTHLY CABLE BILLS OR FANCY TV'S TO BUY:** Now everyone can still save money by not having a monthly cable or satellite bill. Paula and Henry Ziel enjoy the beautiful picture and higher quality sound on their old TV, thanks to the new Miracle ClearView TV box that makes television screens bold and bright. Ziel says he no longer has to turn up the volume because the Miracle ClearView TV box now gives him crystal clear sound. The United States Department of Commerce is preparing for the switch to digital TV. That's why Universal TechTronics is passing out 2 special TV boxes free per household, so getting the Miracle ClearView TV box for free and having the protection of a 5 year warranty at just fifty nine dollars is a real steal. Everyone can now get the Miracle ClearView TV boxes free just by calling Universal's National Hotline at 1-866-282-6594 and beating the order deadline.
